"Thank you very much for sending me your CD 'Angelica'... The songs are wonderful. I enjoy them every day... When my two sons (10 and 12 years) heard your songs at first, they started to cry. The older one told me that his heart hurts when he listens to your music because he gets such wonderful thoughts and they touch his heart. The younger one told me that he gets visions. So you have created a very mystical and Divine CD. Thank you very much for this wonderful music."

"Well written inspirational and meaningful songs sung by a beautiful pure voice. She sings with her Soul; you could think of Enya, but I can't actually think of anyone I've heard singing like that. A pure sound."
